

# NanoRevolution 3.0™

For Herbicide • Nano-Driven Adjuvant

## ACTIVE INGREDIENTS:

Proprietary blend of elemental compounds and derivatives thereof	8.0%
Linear Exthoxylated Compound	1.5%
Other Ingredients	90.5%
TOTAL	100.0%

## MIXING FORMULA:

**NanoRevolution 3.0 + Herbicide Then Add Water**

**NET: 2.5 US Gallons or 275 Gallon Shuttles**

## EXCELLENT FOR OVERCOMING HERBICIDE RESISTANT WEEDS

Including Glyphosate and 2,4-D. Without altering the existing chemistry of your herbicide, the herbicide "piggybacks" onto the nano particles as they penetrate the leaf structure, carrying the herbicide directly to the root system for a faster enhanced plant absorption of herbicides even on hard to control weeds.

## APPLICATION OPTIONS

NanoRevolution 3.0™ is designed to be added directly to the spray tank. In a typical application the proper mixture of glyphosate or 2,4-D would be added to the appropriate mixture of water along with the desired ratio of NanoRevolution 3.0.

Apply 2-6 ounces of NanoRevolution 3.0 per acre of application regardless of the water amount applied per acre and/or herbicide application rate per acre.

For weeds that exceed the herbicide label's recommendation and harder to control weeds, an application of 6 ounces of NanoRevolution 3.0 per acre may prove beneficial.

## ADDITIVE FOR GLYPHOSATE & 2,4-D AND FOR ROUNDUP TYPE WEED KILLER.

NanoRevolution 3.0 for Herbicide is a proprietary adjuvant that is specifically engineered from the ground up which safely improves the performance efficiency of applied glyphosate and 2,4-D herbicide products. NanoRevolution 3.0 may prove beneficial when dealing with stubborn burn-down issues and off-label weed control.

### Method of Penetration Media

Application	Carrier	Rate	Side Effect
Herbicide+	Water Only	50% or less	Limited Control
Herbicide+	Non-Ionic Surfactant	up to 60% or less	Limited Success/ Weather Dependent
Herbicide+	Ammonium Sulfate	up to 65% or less	Limited Success/ Weather Dependent
Herbicide+	Crop Oil	up to 70% or less	Crop Damage/ Hotter Chemistry
Herbicide+	Liquid Nitrogen	up to 75-80%	Salt Related Crop Injury/ Burn
Herbicide+	NanoRevolution 3.0	95+% or more	Nano Enhanced/ Maximum Penetration

### STORAGE & HANDLING

All materials should be handled under good housekeeping practices. Wash hands after use. Wear gloves if exposure is prolonged. Care should be taken to ensure product is not introduced to drinking water or foodstuffs. Store container in a dry and cool place and keep from freezing. Store product in a temperature range between 50°F to 75°F; keep container closed when not in use. Always use clean and sterilized handling equipment when re-packaging and transferring product.

### WARRANTY

Max Systems LLC does not make a warranty of any kind, expressed or implied, regarding the use of this product. Agronomy practices, weather, soil and water differences, other unknown conditions, all of which are beyond the control of Max Systems LLC, render the user responsible for all risk of use of this product.
